SUMMARY:

I am a British-trained art psychotherapist, clinical family therapist and published author, with clinical experience in child and adolescent residential psychiatry, community welfare, adult mental health, and intellectual disability. I hold a Masters Degree in Art Education (Art Therapy), and a post-graduate Diploma in Art Therapy and have taught art therapy at three universities. More recently, I worked for Corrective Services teaching visual art, then as a Program Development Officer for the Offenders Program Unit. Currently, I run a small private practice, specializing in individual and couple/family work, clinical supervision and customized training that includes Interactive Drawing Therapy, (IDT).

As a clinical family therapist, I am registered with the Psychotherapists and Counsellors Federation of Australia, (PACFA). Further training includes solution-focused, narrative, and systemic family therapy, child and adolescent psychoanalytic psychotherapy, group work, psychodrama and sand play. As a PACFA Accredited Supervisor, I provide clinical supervision for family therapists, relationship counsellors, art therapists and group leaders.

My specialization is children, adolescents and families and includes hospital-based child and adolescent mental health, a residential school, juvenile detention, and adolescent and family counselling. I co-founded the Australian and New Zealand Art Therapy Association and the International Networking Group of Art Therapists and have edited a number of professional newsletters including art therapy and family therapy.

Most recent publications include: Author for *The Introductory Guide to Art Therapy: Experiential Teaching and Learning for Students and Practitioners*, 2014; *Art Therapy 'Down Under': Perspectives on the Profession from Australia and New Zealand*, in D. Gussak & M. Rosal (eds) *The Wiley Handbook of Art Therapy*, 2015; *Australia - Family Art Therapy: Dots Meaning and Metaphor*, in C.
